Resolver, the Resolver logo, GRC Cloud by Resolver, and the GRC Cloud by Resolver logo are trademarks or registered trademarks of Resolver Inc.

Information in this document is subject to change without notice.

Companies, names, and data used in the examples herein are fictitious unless otherwise noted.

Although every precaution has been taken in preparation of this document, Resolver Inc. assumes no responsibility for errors or omissions. Neither is any liability assumed for damages resulting from the use of the information contained herein.

Permission to modify and distribute this document strictly for the purpose of internal user training is hereby granted, provided that it is made evident the document has been modified, and that all copies contain all proprietary notices set forth in or on the original version. Resolver Inc. assumes no responsibility for errors or omissions resulting from the modification of this document. Resolver Inc. expressly waives all liability assumed for damages resulting from the modification of the information contained herein. Notwithstanding the permission granted herein, no part of this document may otherwise be reproduced, transmitted, disseminated or distributed, in any form or by any means, electronic or mechanical, for any other purpose, without the express written permission of Resolver Inc.

Microsoft, Windows, Windows Vista, Windows Server, SQL Server, Access, Internet Explorer, Excel, PowerPoint, Outlook, Active Directory, Visual Studio, Visual Basic, the Office logo, .NET logo, and Microsoft Gold Independent Software Vendor (ISV) Partner logo are trademarks or registered trademarks of Microsoft Corporation in the U.S. and other countries.

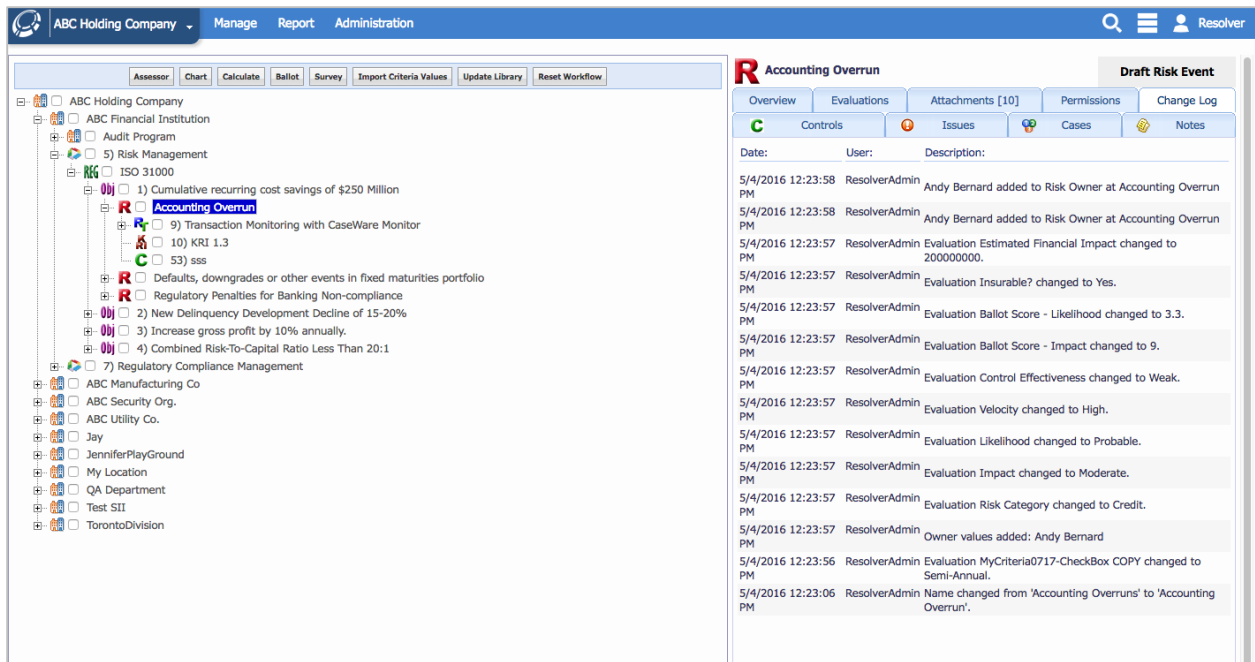

Wi-Fi is a registered trademark of the Wi-Fi Alliance.

All other products, brands, names, or trademarks mentioned in this document may be trademarks or registered trademarks of their respective owners.

GRC Cloud 8.2.1 Update

Change Log

Administrators can now hide the Change Log and Audit Trail tabs in Manage by Location and Reports. This setting can be activated through a user's profile.

Tableau

Resolver is upgrading its codebase and servers in order to support the latest version of Tableau. This will have no impact on GRC Cloud functionality or existing dashboards, however, a Tableau desktop update from version 8.3 to 9.3 is required once GRC Cloud has upgraded to 8.2.1.

Users will be prompted to complete the update when they create a new dashboard and try to publish it to the Tableau Server or open and edit an existing dashboard that has been published to the Tableau Server. Note that because updating may require administrative rights on your computer, the official 8.2.1 release date will be announced in advance so users can make arrangements with their IT department to complete the upgrade on their behalf, if necessary.
